FORTY THOUSAND RUSSIANS KILLED AT PRZEMYSL.

Arrival of the Hindu Troops at Marseilles.

"To fight for the allies.

made the announcement in Dublin that the Indian troops had landed at Marseilles there was great rejoicing throughout the United Kingdom. That the Indian troops are
fighters has been demonstrated on many, many occasions, and England's hopes are building high as to what will happen when they reach the firing line.

WORLD'S NEWS IN TODAY'S TIMES.

REVIEWED, CLASSIFIED AND INDEXED.
Events of Yesterday: (1) Removal of the
to Havre in France. (2) Sweep of the
British Order Their Women to
the I. W. W. (4) Congress. (5) Mexico. (6) The
Capt. John D. Fredericks.

ROCKY.
California during the past year has
been the greatest in history.
State Railroad Commission refuses the
request of the Southern Pacific to in-
crease its suburban passenger rates in
the San Francisco Bay district.

GENERAL EASTERN. Bombs were
exploded in two Roman Catholic churches
in New York yesterday, and members
of the I. W. W. have been arrested on
suspicion.
Bankers in session in the East sug-
gested amendments to the Federal re-
serve act which will make membership
in the system more attractive.

WASHINGTON. Reports which have
been received at the Red Cross headquar-
ters in Washington indicate that the for-
eign societies are completely over-
whelmed by the magnitude of the work
ahead of them in the European war.

RUMOR.
The rumor that the United States and
Germany were exchanged yesterday be-
tween Secretary Bryan and the repre-
sentatives of that country.

MEXICO. A force of Villa's men is
reported on the way from Guaymas to
capture Lower California.
The Arizona National Guard is under
arms as a result of the fire of the Mex-
icans at Agua Prieta going over the
American line.

THE GREAT WAR.
The British were reported yesterday to have
advised their women to leave Constanti-
nople. The danger of Turkey, Roumania
and Greece becoming involved in war is
increasing.
The headquarters of the Belgian govern-
ment was transferred yesterday to
Havre, in France.
The French claim to have made
marked progress between Arras and Al-
bert.

THE GERMANS ARE IN COMPLETE POSSESSION
of Antwerp.
Conflicting claims were made again
yesterday by Vienna and Petrograd as
to the status of things in Galicia.

COMMENT ON THE SITUATION.
The Germans were reported yesterday
to be sweeping across Belgium in the
direction of Ostend, whence the
headquarters of the Belgian govern-
ment was transferred to Havre, France.
In doing so they have in-
vited part of the allied forces away
from the Aisne and the Oise. Thus it
appears that the battle of the Aisne
and Oise is about to make way for
another name in the current history
of the war of the races. The battle
has been in progress over a month.
The Boer rebellion in South Africa,
under the lead of Col. Maritz, is con-
sidered unfortunate for the English
at this moment, though Maritz is said
to have but a small following and to
be one of the irreconcilables in any
event.

None of the dispatches bear any
telling that anyone has yet been dis-
covered with wisdom enough to recon-
cile the conflicting official dispatches
from Petrograd and Vienna.

CALIFORNIA. A Pas-
senger train was killed in a motor
car wreck yesterday.

MAINE. A woman was shot by her
husband, near the harbor.

MAINE. A woman was shot by her
husband, near the harbor.

MAINE. A woman was shot by her
husband, near the harbor.

MAINE. A woman was shot by her
husband, near the harbor.

OSTEND IS PANIC-STRICKEN; DIPLOMATS AND PEOPLE FLEE.

BY ATLANTIC CABLE AND A. P.

LONDON, Oct. 13.—The great in the
demand for passage on steamers
from Ostend that those boats ar-
riving at Folkestone today carried no
baggage. As soon as they discharged
their human freight the steamers re-
turned to Ostend, where thousands of
Belgian refugees were clamoring for
transportation to England.
The statements of some of those
who succeeded in getting away indi-
cate that a panic exists at Ostend
where crowds of fugitives continue to
arrive, spreading exaggerated reports
regarding the proximity of the Ger-
man pursuers.

REVENGEFUL.
Among today's arrivals at Folke-
stone and Dover were several hun-
dred wounded Belgian soldiers. It is
likely that their number will be con-
siderably increased in the next few
days. They are being looked after by
the relief committee for wounded
allies and are being sent in small
batches to different provincial cities
and towns where arrangements have
been made to provide them with hos-
pital accommodations.
It is estimated that already nearly
100,000 Belgian refugees have landed
on these shores. It is feared that the
stream of fugitives will increase in
volume as the German occupation of
Belgium becomes more complete.
Herbert Louis Samuel, president of

the local government board, today is-
sued an appeal asking that commit-
tees be formed in various parts of the
country to assist in obtaining food and
shelter for the strangers and to help
find homes in which they may be placed.

**BOMBS DAMAGE TWO CHURCHES;
NEW YORK I. W. W. IS SUSPECTED.**

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

NEW YORK BUREAU OF THE
TIMES, Oct. 13.—Bombs were ex-
ploded this afternoon and late to-
night in two Roman Catholic churches
—St. Patrick's Cathedral and St. Al-
phonse's, West Broadway and Canal
street.

It was in St. Alphonse's, on March
4, that Frank Tannenbaum and 189
members of the Industrial Workers
of the World were arrested after a
riot that disturbed worshippers.

The police had not connected the
bomb at St. Patrick's with the I. W. W.
tonight, but the investigation of both
cases will follow that line.

No arrests have been made so far
in either outrage.
At St. Patrick's, where the bomb
was exploded about 5 o'clock in the
afternoon, a boy in one of the pews
was slightly hurt. The bomb at St.
Alphonse's was exploded shortly be-
fore midnight. No one was hurt there.

THROWN FROM ELEVATOR.
The bomb directed at St. Alphonse's
Church was thrown from a south-
bound Sixth-avenue elevated train
between Grand-street station and

the walls for many years, and was
brought from Rome by John Kelly,
who married a niece of Cardinal Mc-
Cluskey. A flying piece of metal was
prevented from damaging the painting
by striking a marble arch. The piece
of the marble struck by the missile
was chipped off.

The doors of the last three pews on
the Fifty-second-street side of the
church were shattered, and the
wooden floor at the base of the mas-
sive column, where the explosion oc-
curred, a hole a foot in length and
half a foot in diameter was made.
Particles of the infernal machine
were blown as high as the ceiling.
Small chips of marble, of which the
ceiling is built, were broken off.
There was no clew whatever found
which might be used to trace the per-
son who was responsible for the ex-
plosion. At the time it occurred the
church had not been lighted and
there were less than thirty persons at
devotions. So far as can be learned,
there was no one sitting in the pew
nearest to where the explosion hap-
pened.

John Ryan, 14 years old, who was
kneeling in a pew at prayer thirty
feet away, was knocked unconscious
by a piece of the flooring hitting him
on the forehead.

NUISANCE.
The Arzu Prieta garrison received
a hundred thousand rounds of ammu-
nition today and equipment for the
volunteer reinforcements. A search-
light has been mounted on the tallest
building in town in preparation for a
night attack.

DOUGLAS (Ariz.) Oct. 13.—Mexi-
can fire from the Villa faction, be-
lieging Arzu Prieta, Sonora, and
its Carranza garrison, again crossed
the international line today.
One trooper of the United States
border patrol received a shot through
the hat last night and the rain of bul-
lets caused the inhabitants on the
border side here to seek safety in the
northern part of the city.

A statement of conditions here was
telegraphed to Gov. Hunt at Phoenix
by Capt. C. S. Booher of the Arizona
National Guard. Gov. Hunt made an-
other appeal to the government at
Washington for more vigorous action
by the Federal border patrol.
Although Gov. Maytorena, com-
manding the Villa forces attacking
Arzu Prieta is a reconnaissance, the
defenders believe they face a siege.
Col. Reynas's troops are intrinching
themselves outside the town as if for
encampment.

The casualties so far are reported as
one killed and two wounded in the
garrison under Commandant Plomero
Acedo, and eleven killed and thirty
wounded among the attackers.
The Villa forces were used by the Acedo forces
last night.
One shell fired by Maytorena's gun-
ners struck near the American cav-
alry station. Maytorena is reported
to have received reinforcements to-
day, and two more pieces of artillery.
For several hours tonight the garri-
son fired blindly in the general direc-
tion of the attacking forces. Yaqui
troops were seen in the distance.

DESPERATE FIGHTING IN THE ARGONNES.

*Violent Attacks on German Positions
Said to Have Been Repulsed.*

**London Hears that the Invaders are Establishing a
Continuous Line of Fortifications from Liege to
Valenciennes—Sweep of the Armies Through Belgium
Toward the English Channel.**

[BY ATLANTIC CABLE AND A. P.]

LONDON, Oct. 13, 9:50 p.m.—The following
official statement given out in Berlin, has
been received here by the Marconi Wireless
Telegraph Company:
"It is officially reported from Vienna that 40,-
000 Russians were killed or wounded near
Przemysl.

"Belgian officers who are interned in Hol-
land estimate that about 20,000 Belgian soldiers
are still in Antwerp as prisoners.

"The Germans, as soon as they entered Ant-
werp, took possession of all the fire engines in
the city and commenced extinguishing the fires."

BERLIN, Oct. 13, via Amsterdam and London, 11 p.m.—
Heavy fighting continues in the Argonne, two chains of hills in
northeastern France, according to an official statement received
here today from the German headquarters, under date of October
13. Violent attacks made by the enemy east of Soissons have been
repulsed, it is said. The communication follows:
"There is no important news from the western war theater.
Violent attacks made by the enemy east of Soissons have been
repulsed. Heavy fighting continues in the Argonne. Our troops
are moving forward through dense underwood in very difficult
ground with siege trains for use against the fortifications. The
French troops offer obstinate resistance, firing from trees where
machine guns are posted. Besides rifle pits which are arranged
in tiers, they have built strong points of support."

The statement contradicts reports given out by French army
authorities regarding success met with by the allies in the Weverre
region, and denies other reports. It continues:
"All the French attacks at St. Mihiel have been repulsed.
Etain (12 miles northeast of Verdun) remains in our possession."

LONDON, Oct. 14, 1:40 a.m.—"The German positions in
Belgium are equal to those on the Aisne," says a Central News dis-
patch from Ostend. "In addition to Antwerp, they have prepared
reinforced concrete works heavily mounted with guns, extending
from a point east of Louvain to a place north of Vilvorde, on
through Alost and thence south to a point southeast of Brussels.

"There is also a continuous line of fortifications from Liege
through Namur and Mons to Valenciennes. Thus should the
German right retreat, it would be powerfully protected unless
the works were forced beforehand."

LONDON, Oct. 13, 9:35 p.m.—The
headquarters of the Belgian govern-
ment were transferred today to Havre.
With the exception of King Albert,
who remains at the head of the army,
and the Minister of War, the mem-
bers of the Cabinet, with the other
government officials and diplomatic
corps, left Ostend by steamer for the
French port, where they will carry on
the affairs of state, and where hos-
pitality has been offered them by the
French government. The American
and Spanish Ministers, both of whom
are still at Brussels, are the only
diplomatic representatives accredited
to Belgium remaining in that coun-
try.

This is the third move of the Bel-
gian capital since the Germans al-
lenced the forts at Liege. The gov-
ernment first moved from Brussels to
Antwerp, thence to Ostend, and today

across the line to Havre. This final
change followed quickly upon the
German westward advance, which was
begun immediately after the fall of
Antwerp. Success in taking the chief
port of Belgium opened the way for
a new plan of campaign, which em-
braces the occupation of the whole of
Belgium, including the coast towns
and it possible some of the northern
French ports.

In accordance with this new plan,
the German invaders have begun to
sweep across northern Belgium.
Yesterday morning they occupied
Ghent without opposition, and are
now said to be well advanced toward
Bruges on their way to Ostend. They
probably will meet with strong op-
position before they reach Bruges, as
the Belgian army is now being rein-
forced.

All dispatches from that region are
being strictly censored, so that noth-
ing has been learned of the opera-
tions.

(Continued on Fourth Page.)

EXTRATERRITORIAL.

**GOVERNMENT OF BELGIUM
NOW LOCATED IN FRANCE.**

[BY ATLANTIC CABLE AND A. P.]

BORDEAUX (France) Oct. 13.—It
has been decided to transfer the
Belgian government to France in
order that it may have full liberty of
action. The foregoing was announced
officially in Bordeaux today.

A portion of the Belgian govern-
ment and the diplomats left Ostend
this morning for Havre, where the
French government has taken meas-
ures for installation of the Belgian
government.

The care of all wounded con-
valescents has been entrusted to the
municipality of Ostend. King Albert
remains in Belgium at the head of his
army. The Minister of War and other
members of the Belgian Cabinet
also remain. Concerning the move of
the Belgian government the follow-
ing official notice was given out in
Bordeaux today.

"Belgian government, not finding
on its own territory the freedom nec-
essary for the exercise of its author-

ity, has asked hospitality of the
French government and permission to
establish its government at Havre.
The French government replied
promptly, setting forth that it would
be sincerely glad to receive King
Albert and the Belgian government at
Havre and guarantee them the full
exercise of their authority.

"The French Minister of Marine,
M. Augagneur, has gone to Havre to
receive the Belgian government,
which should reach there today."

"The French government has taken
steps," says the official statement, "to
see that the Belgian Ministers are es-
tablished under the most comfortable
conditions. Questions of international
law have been settled in a manner to
give complete satisfaction to our al-
lies."

"The Belgian government will en-
joy extraterritoriality and will have
its letters franked and will be ac-
corded preference in the matter of
telegrams. It will enjoy the same
rights as are given to the Holy See by
Italy under the law of guarantees."

OFFERS TO SELL
ALASKA RAILWAY.

J. P. MORGAN WOULD DISPOSE OF
COPPER RIVER SYSTEM TO
GOVERNMENT.

(BY A. P. DAY WIRE.)
WASHINGTON, Oct. 13.—An offer
to sell or lease the Copper River and
Northwestern Railway to the govern
ment for use in connection with the
railway, the government is preparing
to build in Alaska, was made today
by J. Pierpont Morgan to Secretary
Lane of the Interior Department.

The Secretary replied that pending
a report from the board of engineers
now surveying proposed routes in the
territory he was unable to consider
any proposition for acquisition of ex
isting lines.

As the head of the New York bank
ing house of Morgan & Co., Mr. Mor
gan represents the control of the Cop
per River and Northwestern Railroad,
which is owned by what is known as
the Alaska syndicate, a pool in which
the Morgan and Guggenheim inter
ests are the principal factors.

The road is 194 miles long and
extends from Cordova, its southern
terminus on Prince William Sound, in
a northeasterly direction to Ken
cotten, the local of the Bonanza copper
mine. It constitutes the outlet of the
seacoast of the copper mined by the
Guggenheim interests in Alaska.

PLEADS FOR PEACE.
Secretary Bryan Cables Resolution
of Pan-American Union to Warring
Nations of Europe.

(BY A. P. DAY WIRE.)
WASHINGTON, Oct. 13.—Secretary
Bryan cabled today to the belligerent
nations of Europe a peace resolution
adopted last week by the governing
board of the Pan-American Union,
which comprises the United States
and the other twenty American rep
ublics. The resolution, presented by
from his government, follows:

"In view of the awful strife now
devastating continental Europe, the
governing board of the Pan-American
Union hereby resolves to convey to
the governments of the belligerent
countries an earnest expression of its
hope for peace as a tribute to the
sentiments of fraternity which have
inspired the meeting of the Pan-
American conference."

LEAD TRADE INCREASES.
Metal Heretofore a Negligible
Quantity in Our Exports Suddenly
Becomes Important Factor.

(BY A. P. DAY WIRE.)
WASHINGTON, Oct. 13.—Domestic
lead, the exports of which heretofore
have been virtually a negligible
quantity, has now become an important
factor in the foreign trade of the
United States, according to the De
partment of Commerce today. The
total exports of domestic lead in ore
from March to August, 1914, inclu
sive, aggregated 72,710,000 pounds,
valued at \$2,810,000. This is the first
record of any such exports. During
the four months ending June 1, 1914,
10,000,000 pounds of domestic lead were
shipped, 12,000,000 pounds to Eng
land, 10,000,000 to Germany, 5,000,
000 to The Netherlands, 4,000,000
to Belgium, 1,000,000 to Scotland,
and smaller amounts to Russia and
other countries.

For many years practically all the
exports of lead have been reship
ments of Mexican lead in bullion and
bars, with smaller amounts from Ger
many, England, Canada, South Amer
ica and German Africa.

MEMORIAL TO MRS. WILSON.
Model Block of Sanitary Houses in
Washington Slum District to be
Erected.

(BY A. P. DAY WIRE.)
WASHINGTON, Oct. 13.—A move
ment to build a memorial to Mrs.
Woodrow Wilson in the form of a
model block of sanitary houses in
the slum district of Washington has
been started by Mrs. Archibald Hop
kins, who interested Mrs. Wilson in
slum work here; Mrs. Ernest Bicknell,
wife of the director of the American
Red Cross, and other prominent women.
The plan is to raise money for
erecting 200 and to have the women
of the country and to call it the
Ellen Wilson memorial block.

PRAISE FOR BRECKENRIDGE.
Secretary Garrison Declares Recent
American Relief Work Abroad was
Most Satisfactory.

(BY A. P. DAY WIRE.)
WASHINGTON, Oct. 13.—In a let
ter to Assistant Secretary Henry
Breckenridge, made public by the War
Department today, Secretary Garrison
praises the work of the American re
lief expedition in Europe. "I feel dis
tinguished," the letter says, "to await
the reception and acknowledgment of
your report on the relief work before
expressing my warm and sincere ap
preciation of your services."

"How well the work was done is at
tested by all those who had oppor
tunity to observe it. Our Ambassadors
and other diplomatic agencies have
cabled or written their appreciation
and praise. From our own citizens
and foreigners who were brought in
to contact with the work, comes the
same hearty and appreciative com
mendation."

Mr. Breckenridge made public to
day a letter addressed to the Sec
retary in which he denies that he gave
any interviews to the press on the
conduct of the war work abroad.

OPPOSES ONE-TERM PLANK.
President Wilson is Fishing Around
to Find Some Way to Again be a
Candidate When Time Comes.

(BY A. P. DAY WIRE.)
WASHINGTON, Oct. 13.—Officials
close to the White House today ad
mitted that President Wilson is op
posed to the single-term plank of the
Baltimore platform in a letter written
to Representative Palmer of Penn
sylvania last year, when the subject
was considered by the House Judiciary
committee. It was said, however, that
the latter would not be made public.
The President has never publicly dis
cussed the question, but has been un
derstood to believe there should be no
constitutional one-term restriction.

RED-LETTER DAY
FOR FREDERICKS.

Santa Rosa Gives Candidate
Tremendous Greeting.

Declares Charges of Johnson
are a Tissue of Lies.

Speech Against Treason is
Cheered by Veterans.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
SANTA ROSA, Oct. 13.—This Tues
day, the 13th of October, will stand
out as a red-letter day in the cam
paign of Capt. John D. Fredericks.

Not since the Republican candidate
for Governor left Southern California
has he been given such receptions and
overtures as he received today. Not
that the North has not turned out
strong for him. It has. Every city and
town that he has visited in this part
of the State has extended to him the
greatest cordiality and honored him
with record meetings.

But today Santa Rosa and Sonoma
counties climaxed his triumphant north
ern tour by providing demonstrations
of stellar character. The Columbia
Theater here could not hold the
crowd that greeted Fredericks to
night.

The Republican standard-bearer
took occasion to brand as a damnable
lie a statement made by Johnson at
San Rafael that his "reactionary"
opponent (Fredericks) had "assess
ed" a public utility corporation \$125,
000 for his campaign fund.

"I challenge Hiram Johnson to
name that corporation! I challenge
him to prove that he is right," Fre
dericks declared to his audience here.

"His statement is one of many
equally false assertions he is making
to the vain hope of saving a lost
cause."

Hiram Johnson's idea of "big busi
ness" was a subject dealt with at some
length by Capt. Fredericks today. Ex
pensive posters bearing a likeness of
Johnson have been posted broadcast
in this part of the country. They an
nounce that "the State's business is
your big business."

FREDERICKS' REMARKS.
"It is very difficult to interpret this
vague progressive slogan," Fredericks
said to his audience today. "Surely
the Governor does not want to draw
attention to the manner in which the
official business of the State is being
conducted at this time, with a major
ity of those responsible for the proper
conduct of the official business of Cal
ifornia absent from their posts,
stumping in vain to avert the cer
tain and overwhelming defeat that
awaits the Progressive party on No
vember 3."

"All that effort on the part of
State employees for which you and I
are paying is not 'your big business,'
but his 'big business.' Surely, he does
not refer to the big business that has
been discouraged from coming to Cal
ifornia during his administration. It
must be in irony that he and his fol
lowers refer to 'big business' at all.
Their policy was the big stick for big
business and the result is that capital
has turned away from California."

"During the last two years the
amount of corporation capitalization
in this State has fallen off \$75,000,000.
Today in California we have little
business interest of big business. Pro
gress is the great issue here today.
The present administration has cre
ated political unrest and the business
depression in this State."

"If you return to power the party
I represent, the party that always
has had jobs looking for men instead
of men looking for jobs, we will give
to the people of the world that as
semble here during the Panama-Pac
ific Exposition our pledge that in
vestments in California will be safe."

VISITS YOUNTVILLE.
Capt. Fredericks this morning went
from Napa, where he had a splendid
meeting last night, to the Soldiers'
Home at Yountville. He was escorted
by a delegation from the County
Central Committee, headed by Chair
man W. C. Griffith, to whom credit
is due for the success of this banner
day of the campaign. At Yountville,
Capt. Fredericks talked to several
hundred veterans. His audience was
composed of men who have fought
men who are determined to punish
Hiram Johnson for his desertion from
the ranks of the party that put him
in office and his disfranchisement two
years ago of the Republican electo
rate.

Capt. Fredericks' appeal to the old
soldiers to rally to the support of the
party and principles they have fought
for left them in tears. To these men
party lines mean much and dozens
of them promised him that he would
get an almost unanimous vote from
the home. Col. W. H. C. Bowen,
commandant of the institution, intro
duced the captain.

AT ST. HELENA.
At St. Helena at 11:30 Fredericks
spoke to one of the largest noonday
political meetings ever held there.
After the rally, at which Bismarck
Bruck, candidate for the Assembly,
spoke, the Fredericks party had
lunch at the St. Gothard Inn before
proceeding to Callista, where it
was joined by Mrs. Fredericks, who
had remained in Napa as the hon
ored guest of the women of the city
at the reception and luncheon.

The captain took a few minutes to
run up to the St. Helena Sanitarium,
where he spoke briefly.

The Callista meeting was an un
usually gratifying one. Like those at
Napa and St. Helena, it was a record
breaker.

Through the wonderland of the
Napa Valley the Fredericks party
drove over the mountains in the In
dian summer haze to Sonoma county.
Six miles out of Santa Rosa we
coming committee with fifty automo
biles was waiting with a brass band.
The procession paraded into this city
this evening with the band playing,
automobile horns honking and
greeted by cheers and handclapping.

All in all, it was a wonderful day.
From the time the gubernatorial
party left Napa it was not without a
band. Napa and Sonoma counties
extended themselves. Both will give
Fredericks overwhelming majorities.
To all his audiences the Republican
candidate expressed his views on
civil service.

"Those men and women," he re
peated, "who are under civil service
and who have performed their work
need have no fear of my administra
tion, but those who have been doing
politics had better get heavy half
soles on their shoes, for they will
have to walk."

Grant Leughlin, chairman of the
County Central Committee, and C. F.

WOMEN UNITE
FOR FREDERICKS.

PLAN CAMPAIGN THAT WILL
SWEEP BAY COUNTY.

Great Republican Organization is
Formed with the Idea of Giving
the Feminine Voters Credit for
Carrying San Francisco for the
Republican Ticket.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
SAN FRANCISCO BUREAU OF
THE TIMES, Oct. 13.—In order that
there may be no question of Capt.
John D. Fredericks carrying San
Francisco in the coming election, Re
publican women of the city are plan
ning a campaign which will make the
meeting and they plan active work
also give them credit for the victory.
To this end it has been arranged for
October 23 to be "Fredericks Day" in
this city and upon that date there will
be meetings in every district and in
many precincts here.

The plan was thrashed out to
day at a meeting of California Women's
Republican Club at which Mrs.
Florence Richmond presided. Mrs.
Helen E. Williams was chosen chair
man of organization and she ap
pointed district chairmen in every As
sembly district.

The women want to have the credit
of carrying San Francisco for Fre
dericks," was the sentiment of all at
the meeting and the plan active work
from now on. It was at first thought
a Fredericks banquet would be the
proper means to arouse enthusiasm,
but this was abandoned for the pro
ject of an entire day devoted to the
cause.

The district chairmen were ap
pointed today and they in turn will ap
point precinct chairmen. Beginning
early October 23 a number of speak
ers will tour the entire city speaking
in the homes of these chairmen,
where meetings are to be arranged.
In that way the entire city will be
covered and the women will have
chance to hear Republican doctrine
expounded and learn of the qualifi
cations of the various candidates run
ning for office.

Mrs. Gertrude Kane of Sacramento
reported to the club that she had an
organization of 800 women in the
capital city working for the Republi
can cause, and Mrs. H. Church of
Fresno reported enthusiasm for Re
publicanism among the women in her
city.

CONSCIENCE HURT HIM.
Railway Switchman Surrenders to
Federal Authorities and Admits
Falsifying Indorsement.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

THE TIMES, Oct. 13.—Because his
conscience would give him no peace,
Frank Strasser, a railway switchman,
surrendered to the Federal authori
ties at Eureka for forging an indorse
ment to a money order for \$23 in
January, 1914, and today was order
removed to Los Angeles by United
States Circuit Judge Morrow, sitting
for Judge Dooling. The offense was
committed at San Bernardino.

Washington.
THE RED CROSS
OVERWHELMED.

Work is Far Too Gigantic for
Foreign Society.

Call for Contributions for
Turkey and Mexico.

Victims of Floods in China
will Also be Aided.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Oct. 13.—Foreign
Red Cross societies are overwhelmed
and able to give little assistance to
the sufferers of the war, says an offi
cial statement issued tonight by Red
Cross headquarters here. The situa
tion in territories where the contend
ing armies have been engaged, the
statement says, is beyond description.
An unnamed army officer, just re
turned from the war zone, is quoted
as saying that "in one little coun
try church he saw 400 badly wounded
soldiers who also suffered from hun
ger. Red Cross representatives could
give them but slight attention."

"That poor little fellow will die in
a little while," said a surgeon to the
American when the latter started to
give assistance to one soldier. "You
can't give him a piece of bread, but it
will do him any good. You had
better give it to one of the men who
has a chance of recovery."

A call for contributions to relieve
the sufferers from famine, earth
quakes and civil disorders in China,
Turkey and Mexico, respectively, was
issued tonight by the Red Cross. In
the provinces of Kwangtung and
Kwangsi, China, flood damages are
unprecedented. The natives have
nothing to eat, and in many places
cannot even get the leaves of trees to
satisfy their hunger.

Lincoln and the
high ideals.

Lincoln High School

N. Bdw. & Prichard

BECAUSE the "Rail-splitters" at Lincoln High
School bonded themselves to build tennis courts
for the school the student body has stepped into
the blue-ribbon row of potentialities. This loyalty
and initiative speaks real Americanism, whispers
successful futures, and reflects the Los Angeles spirit.

Lincoln High School towers magnificent out of a
cluster of picturesque buildings of early Los
Angeles vintage. And also how fitting for it to stand
in behalf of education on a portion of the original
lands when Los Angeles was a Pueblo of the
degenerate Indians.

Lincoln High School is but thirteen months old.
Its 1107 enrollment presents 588 young women and
519 young men.

Most of the young men over eighteen years of age, some of
them younger, are Hart Schaffner & Marxed. Most of the young
men in every educational institution of the country wear Hart
Schaffner & Marx \$18 to \$40 clothes. Most of the men in the
United States, 3,000,000 fans, wear these good clothes—more than
twice as many as wear any other one make. There certainly
is a reason.

The reason is this:—Hart Schaffner & Marx clothes are smart
but not freakish. They are designed by college men. They have
right style, and they fit. The quality is sincerely good. So is the
crafting. They give service, are economical. We guarantee it.

Mexican Situation.

(Continued from First Page.)

Indians were reported to be creeping toward the intrenchments under cover of desultory firing from the Reynas troops.

Physicians were called from here to dress the wounds of six garrison soldiers.

ARIZONA GUARD IN READINESS.

(BY A. F. NIGHT WIRE.)

PHOENIX (Ariz.) Oct. 13.—The Arizona National Guard was ordered by Gov. Hunt today to be in readiness to entrain at a moment's notice for Naco, where bullets and shells fired by Mexican forces in battle across the border have been falling in American territory for many days.

Gov. Hunt telegraphed to Secretary Bryan at Washington notifying him of the action taken, and asking what steps the Federal government might take.

"Duty demands that I do everything in my power to afford Arizona citizens protection," the Governor wired Mr. Bryan, "and I implore you to advise me what action is being taken to prevent further Mexican outrages."

Mr. Bryan replied that the protests of citizens of Naco, and the situation of affairs in the border, were being referred to the War Department.

These American soldiers, on border patrol duty, and two civilians have been wounded so far by Mexican bullets. On Sunday Tagui Indians, serving under Gov. Maytorena, who is attacking the Carranza garrison of Naco, crossed the boundary and crept up to the rear of the garrison's defenses over American territory. Some of these Indians fired on American troops, who returned the fire and drove them back across the line.

The Arizona National Guard consists of twelve companies, which can muster approximately 750 men. Two of these companies are in Phoenix, two in Tucson and two in Yuma. Douglas, Mesa, Tempe, Prescott, Safford and Morehead have one each. Charles Harris, Adjutant-General, is expected tonight from the East.

THE WEATHER BACK EAST.

Cooler Temperatures are Reported from Practically the Entire Country with Scattered Rainfall.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

CHICAGO BUREAU OF THE TIMES, Oct. 13.—Temperatures continue to drop around the lake region. Chicago's maximum today was 59 deg.

St. Louis reported as low as 45 deg. The Ohio Valley had 60 deg., 5 deg. warmer than St. Louis. All the southwest is quite cool, ranging from 44 to 45 deg. All the Eastern States are much cooler and Canada is down to 26 deg. at some points. Scattering rains fell except in the Southern States, in the East and Gulf districts. Other temperatures:

APPLE GROWERS TO MEET.

Standardization Law in Packing is Most Important Subject to be Discussed by Delegates.

(BY A. F. NIGHT WIRE.)

SACRAMENTO, Oct. 13.—At the request of apple growers, Dr. A. J. Cook, State Horticultural Commissioner, has called a special meeting of the apple growers to take place in Santa Rosa Friday, Oct. 16. All the apple growers and packers of the State are urged to attend this meeting, at which an effort will be made to suggest standardization laws in the packing of apples.

Many of the large growers are at a loss to know what to do with their product this year because of the poor market. It is believed that standardization will aid the situation.

PARENTS ARRIVE TOO LATE.

Four-Thousand-Mile Race to Reach Son Before He Died in Philadelphia is Lost.

(BY A. F. NIGHT WIRE.)

PHILADELPHIA, Oct. 13.—A four-thousand-mile race to reach their son before he died was lost by the parents of nine-year-old John P. Heller, whose death from injuries received in a football game was reported today to the coroner.

Clyde A. Heller, the boy's father, is the president of a mining company with interests in Alaska. He and Mrs. Heller were in Vancouver on their way to Alaska, when they were informed that their son had been seriously injured. Chartering a boat and a special train to San Francisco, they hurried to this city, only to learn that the boy had died.

WORK FOR ALL.

Any One Who Seeks Employment in Colorado Coal Fields in Good Faith can Find It.

(BY A. F. NIGHT WIRE.)

TRINIDAD (Colo.) Oct. 13.—Any one coming into the State in good faith seeking work and willing to reside at the place of his employment may be employed by coal operators in the district now under Federal regulations. This advice was transmitted to Col. James Lockett, commanding Federal troops, in the district, in a letter received today from Secretary Garrison.

President Wilson's intention in defining "residents of the State" in the original order issued a few months ago by Secretary Garrison, according to today's letter, was that of preventing the importation of professional strike-breakers.

MAKE BELGIANS INTO GERMANS.

Municipal Employees of Antwerp Swear Allegiance.

All Policemen are Allowed to Retain Their Arms.

Thousands of Employees Returning to City.

(BY ATLANTIC CABLE AND A. P.)

LONDON, Oct. 13.—"The municipal employees of Antwerp have had to swear allegiance to the German empire," says the Evening News correspondent at Bergen-Op-Zoon, Holland, in a dispatch dated Monday. The message continues:

"The policemen were allowed to retain their arms. The police have been ordered to remove the Belgian flag from all houses. The usual regulations enforced at Liege, Verriers and other Belgian towns are being introduced in Antwerp. These rules include the obligation to light the houses at night and leave the doors open. The imperial standard must be saluted when the army is passing through the streets, and soldiers have been seen to strike off with their sabers the hats of persons who did not give such a salute."

"Already thousands of fugitives are returning to Antwerp and shops are very slowly reopening."

"The town also has been ordered to supply all requisitioned wares free. For instance, two tons of potatoes were to be provided today. All bakers, butchers, grocers and provision dealers not reopening their shops within five days are threatened with stringent measures."

"The Germans say that there are 125,000 of their men in Antwerp, but this figure seems to be exaggerated. Several thousand of the Landwehr troops and marines probably will remain as a garrison."

"Negotiations for the surrender of the city last Friday threatened to collapse because the Germans insisted on having the signature of the Belgian commander, Gen. De Guise. They eventually accepted that of another officer, M. Weermeester."

"Soon it became apparent that notwithstanding all the measures which had been taken, a number of German soldiers, especially women, had managed to remain in the town and were congratulating the army."

"While passing through the boulevard the Germans were astonished at the almost total absence of troops, the Belgians and English having cleverly retreated under cover of a few of their guns afterwards destroying the pontoon bridges."

"The offices and printing plant of the newspaper Metropool are among the buildings burned."

RESCUES FATHER FROM WANDERING.

FORMER CONTRACTOR OF LOS ANGELES FOUND IN NEW YORK SLUMS.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

NEW YORK BUREAU OF THE TIMES, Oct. 13.—Twenty-four years ago Peter M. Leonard, a successful contractor in Los Angeles, crushed with sorrow when his wife and one of his young sons died at the same time, took the surviving son, Richard W. Leonard, to the home of the child's grandparents in Omaha and then left there trying to forget. He lost track of his relatives and like a sheep without a shepherd, wandered alone for more than a score of years.

Richard W. Leonard, aged 26, president of the Ohio National Chemical Company of Cincinnati, after searching Bowery lodging-houses for several nights, succeeded last night in finding Peter M. Leonard and drove off with him in a big black touring car. So father and son met after twenty-four years.

Young Leonard's grandparents had educated him and he had had unusual success in business. A home, a daughter-in-law and three grandchildren he has never seen, and a place in his son's business await Peter Leonard in Cincinnati.

ANGELENO SEEKS BROTHER.

George Wetherin Arrives in Portland, Or., Where He Last Heard from Missing Relative.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

PORTLAND (Or.) Oct. 13.—George Wetherin of Los Angeles arrived in Portland today on a search for his brother, A. N. Wetherin, whom he has not seen for several years.

"All I know is that he formerly boarded at the boarding-house conducted by a Mrs. Douglas, whose first name I never knew," said Mr. Wetherin.

"I am in hopes of finding Mrs. Douglas and from her may learn where my brother is."

Rebellion in South Africa

(Continued from Second Page.)

Col. Maritz boasted that he had ample guns, rifles, ammunition and money from the Germans and that he would overrun the whole of South Africa.

In view of this state of affairs, the government since the most vigorous steps to stamp out the rebellion and to inflict condign punishment on all rebels and traitors.

A proclamation declaring martial law throughout the union will appear in a gazette extraordinary today, if Maritz, the 11th of October, 1914. (Signed) "BUXTON, Governor-General of South Africa."

MARITZ COMMAND HEADS THE REVOLT

(BY ATLANTIC CABLE AND A. P.)

CAPE TOWN (Union of South Africa) via London, Oct. 13.—It has been officially announced here that a command under Col. Maritz has rebelled in the northwest of the Cape province. Martial law has been proclaimed throughout the union.

The rebellion among the forces of the northwest Cape province has been announced by the resignation of Gen. Beyers as commander-in-chief of the union forces.

As soon as the government realized the situation, it sent Col. Brits to relieve Maritz of his command. Col. Brits then discovered that Maritz was commanding general troops as well as his own and that he had German guns in his possession. Maritz, who had been given the German rank of general, had arrested those of his officers and men who were unwilling to join the German and had sent them as prisoners of war to German Southwest Africa.

According to an official statement, an agreement was drawn up between Maritz and the Governor of German Southwest Africa guaranteeing the independence of the union as a republic, ceding Walvis Bay and other parts of the union to the Germans and understanding that the Germans should invade the union only if Maritz asked them to do so.

Maritz boasted that he possessed large supplies of guns, money and ammunition and that he would overrun the whole of South Africa.

"In view of this state of affairs," concludes the official statement, "the government is taking drastic steps to quell this rebellion and punish all rebels and traitors according to their deserts."

Solomon G. Maritz fought in the Boer war with the rank of commander. He was discharged in the early part of November, 1901, described his military activity, and on December 16 of the same year he was reported wounded.

In the summer of 1904 the administration of German Southwest Africa was confronted with a rebellion of the native Hereros and in the early part of July Germany admitted her inability to cope with the movement. She asked aid of Great Britain.

In response the British government granted Germany permission to engage Maritz, who then had the title of general, as a military adviser to Gen. Trotha, commander of the German troops in Southwest Africa. Ten Boer officers and 500 Boer marksmen from Cape Town were sent to Swakopmund, from which place they advanced to join the German forces.

News from Berlin in July of 1904 related that Gen. Trotha had entrusted Gen. Maritz with the conduct of his division against the Hereros. Hope was expressed at this time in German circles in Cape Town that these Boers would remain in German Southwest Africa's colonies.

CAUSED BY OVEREATING

Deficient gastric secretion, meaning a lack of the fluids necessary for digestion, is a prevalent condition. You may have it now and not know it because you are able to get along without actual discomfort even with your enfeebled digestion.

But if you overeat—then you are in trouble. You have indigestion because you have given your weakened stomach too much to do. The deficient gastric secretion was what doctors call the predisposing cause, the overeating was the exciting cause. It is easy to repeat the overeating but the predisposing cause must be corrected if you are to be well.

The secretions that digest the food come from glands that are nourished directly by the blood. When these secretions are insufficient the only way to restore their healthful condition is by building up the blood. This can be done by Dr. Williams' Pink Pills, the non-alcoholic tonic that assists nature in keeping the body in health. Proper attention to diet and the use of Dr. Williams' Pink Pills should be tried in cases of disordered digestion because it is the simple and natural way to correct the trouble.

Send today for a copy of our free diet book, "What to Eat and How to Eat." Address the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

TO STUDY INSANITY.

State of California and American Eugenics Society Join to Trace History of Unfortunates.

(BY A. F. DAY WIRE.)

SACRAMENTO, Oct. 13.—The study of the effects of heredity in the cases of feeble-minded and insane persons has been undertaken jointly by the State of California and the American Eugenics Society, under an arrangement completed today by the State Board of Control and Dr. F. E. Hatch, Superintendent of State Hospitals.

Under this arrangement Miss Ethel Thayer of the Eugenics Society, which has its headquarters at Cold Springs Harbor, N. Y., will do the investigating. The work will begin at the State Home for Feeble-Minded Children at Glen Ellen. Miss Thayer will take the case of each feeble-minded child and trace back its history as far as possible.

HOUSTON AND BULLOCK LOSE.

Former Alaska Coal Land Promoters Must Serve Their One-Year Prison Sentences.

(BY A. F. DAY WIRE.)

SAN FRANCISCO, Oct. 13.—The United States Circuit Court of Appeals today denied the appeal of Charles E. Houston and John H. Bullock from their sentence in 1912 to a year in prison and fines of \$2000 on a conviction of conspiracy to defraud the government in the sale of coal for Alaska forts. The appeal was made on technical grounds, which were upheld in one dissenting opinion.

TO FILL SEIDEN'S PLACE.

(BY A. F. NIGHT WIRE.)

SPRINGFIELD (Ill.) Oct. 13.—Gov. Dunne today appointed Louis G. Stevenson of Bloomington, president of the State Board of Pardons, to be Secretary of State, to fill out the unexpired term of Harry Wood, who committed suicide Sunday.

A Woman Said to Us--

"Your \$20.00 suits for men are excellent quality—perhaps better than you know."

We know that the quality of our suits is excellent but we were doubly pleased when our knowledge was challenged—and especially when challenged by a woman.

Our \$20.00 suits for men and young men are really more valuable to the wearer this year than ever before. The quality is in them "dollar of dollar," and the styles are pleasing, including the distinctive English models, with patch pockets and broad lapels. The neat gray worsteds or the black and white effects in silk mixtures gratify the taste of the more conservative man.

This image shows a dark, vertical, textured strip, likely a book cover or binding. The material appears to be a dark, possibly black, cloth or leather with a fine, vertical ribbed texture. There are visible signs of wear, including scuffs, scratches, and areas of discoloration or staining, particularly towards the bottom. The lighting is somewhat uneven, with the top appearing slightly brighter than the bottom. The overall appearance is aged and worn.

OCTOBER 14, 1914.—[PART I.] 9

THE CITY
AND ENVIRONS.

EVENTS BRIEFLY TOLD.

Licensed in North.

A marriage license was granted in San Jose yesterday to Charles M. Kimball, 40, and Marion N. Eastman, 42, both of this city.

Midweek Dinners Continue.

The come-as-you-please dinner-dances at the Midweek Club will be resumed next Saturday evening. Last week's event was postponed in consequence of the death of H. Page Warden.

Jewish Relief Association.

The arrangement committee of the Jewish Consumptive Relief Association of California, consisting of about 100 representative citizens, will meet at 8 o'clock tomorrow evening in parlor F at the Alexandria.

At Manual Arts.

Bruce O. Bliven, advertising manager for Harris & Frank, Inc., addressed the male portion of the student body at Manual Arts High School yesterday morning. Mr. Bliven's topic was "Personal Efficiency."

I.O.G.T. State Session Here.

The Grand Lodge of California, International Order of Good Templars, will meet at Swedish Auditorium, Flower and Eighteenth streets, Tuesday morning at 10 o'clock. Delegates will be in attendance from all parts of the State.

Texans Have a Ball.

Two hundred former Texans made merry last night at the first annual ball which was held at the Owens apartments, Orange and Valencia streets. The party was lavishly decorated with the colors of Texas white and gold.

Pictures of War Zone.

Prof. R. R. Baumgardt will deliver an illustrated lecture on Europe, at the Isaac-Woodbury Business College, on the fifth floor of the Hamburger building, this evening. The subject is "The Day of Extremity: Europe's Day of Opportunity." H. C. Williams will sing, accompanied by Miss Wakeland.

Will Address the Jovians.

The Jovian Electrical League will be addressed at its luncheon today at noon, at Christopher's, by Rev. F. W. Carstens, on the subject "Does Europe's Day of Opportunity?" H. C. Williams will sing, accompanied by Miss Wakeland.

Valley Men to Visit Us.

One hundred and twenty-five officials and members of the Board of Trade of the San Joaquin Valley will be in Los Angeles on Saturday, October 24. They will be met by a Reception Committee from the Chamber of Commerce and escorted on an automobile ride about the city, which will be followed by a luncheon.

Automobiles Needed.

Secretary Higgins of the Chamber of Commerce issued another call for automobiles yesterday to be used Monday morning in showing the city to the visiting members of the American Association of Traveling Passenger Agents. "The same body held a meeting here twelve years ago and the results are still apparent," said Mr. Higgins. "Why, it is the biggest opportunity that we have to advertise this city for 1931, so we want to get busy." As Mr. Higgins needs 125 machines, he wants every automobile owner with civic pride to communicate with him at once. The machines will assemble at Fifth and Olive streets at 8 a.m. to take aboard the 800 visitors and will be in use only during the morning.

DEFENDS BUSINESS.

Accountant Points Necessity for Discrimination in Actions Against By Corporations.

The local chapter of Certified Public Accountants held its monthly dinner at the Westminster last evening. H. Iver Thomas, the president, presided, and Reynold E. Blight, C.P.A., made an address on "The C.P.A. and the Investing Public."

During his remarks he deprecated the present indiscriminate prosecution of corporations. "At no time in our history has it been so important to carefully discriminate between legitimate and illegitimate business," he said. "A corporation is not bad simply because it is big."

"The world's markets are open to us and it is to our national benefit to co-operate with our business men to take advantage of our unparalleled opportunity. The harassing and persecution of big business simply because it is big, must stop."

Among the members of the local society who were present were: W. C. Muesel, E. H. Spencer, H. Iver Thomas, W. J. Palethorpe, W. F. G. Blakely, R. L. McCrea, C. A. Baskerville, Reynold E. Blight, P. J. Dubbell, William Mackendrick, W. P. Mousus, C. B. Black, H. Probert, A. M. Loomis, O. T. Johnston, M. H. Bennett, Frederick F. Hahn, J. L. Davis.

—and the Worst Is Yet to Come

STATE BUILDING;
WHY WE NEED IT.THOUSAND DOLLARS ASKED TO
EDUCATE VOTERS.

Chamber of Commerce, M. and M., Federated Improvement Association, Realty Board and Many Others Unite in Plea to Council to Provide for Adequate Publicity.

Representatives of the Chamber of Commerce, Merchants' and Manufacturers' Association, Federated Improvement Association, Los Angeles Realty Board, N.E.W. Commercial and Improvement Association, Los Angeles Advertising Club, Municipal League and Associated Jobbers appeared before the City Council yesterday and urged that an appropriation of \$1000 be made for the purpose of carrying on a campaign of education on the proposition of securing a State building for Los Angeles.

The subject was referred to the Council's Finance Committee, and will be considered next Friday.

In the statement presented to the Council members, the economic waste, both as to money and time, in having the various branch offices of the State in widely-separated office buildings in Los Angeles was pointed out. The proposition, which will be on the ballot at the next election, plans the appropriation by the State of \$1,250,000 for the purchase of a site and erection of a State building in Los Angeles. The statement presented yesterday says:

The Legislature at its last session passed bills providing for an expenditure of practically the same amount for the same uses in the cities of Sacramento and San Francisco. These two northern cities are now conducting a general campaign of education showing by certain publications that the rental and other savings will more than offset the interest on the bonds which are proposed to be issued for the construction of these buildings. In our opinion, Los Angeles should proceed in like manner to acquaint the people with the advantages to be secured by Los Angeles by the passage of this provision, and we respectfully suggest that inasmuch as a building properly housing all of the State offices located in Los Angeles will result in great convenience and saving to the city in the exchange of city and State business, the city itself should appropriate a sum, say \$1000, to provide for the preparation of tables and facts for the education of the voters before the November election.

HEAVY INHERITANCE TAX.

Mining Man's Estate Will Pay More Than Ten Thousand Dollars to the State.

The inheritance tax due the State of California from the estate of Robert D. Grant, mining man, who died here June 4 last, is \$19,690.11, according to the report made yesterday in Sacramento, by State Controller Chambers.

The Grant estate was appraised when the will was filed here July 11 for probate, at \$431,560. This was raised by the Inheritance Tax Commission to \$422,588.26, on which basis the tax was assessed.

All of the estate, except \$19,690 in specific bequests, was left to the widow, Amelia B. Grant, the daughter, Ruth E., and the son, Everett D. Grant. The latter is executor. Mr. Grant had been for a number of years a resident of this city, and for more than a score of years a successful mine operator in most of the Western States. The bulk of the estate is in stocks and personal property, with some real estate, including the home at No. 1022 South Alvarado street.

THE WEATHER.
(Editorial Report.)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los
Angeles, Cal. 14—(Reported by Fort A. Crocker,
Local Forecaster.) At 6 o'clock a.m. the barometer
registered 30.01; at 9 a.m. 29.98. Thermometer for
the corresponding hours showed 60 deg. and 75 deg.
Relative humidity, 6 a.m., 65 per cent; 9 a.m., 70
per cent. Wind, 6 a.m., north, velocity 10 miles; 9
a.m., southeast, velocity 6 miles. Highest temperature,
97 deg.; lowest, 63 deg. Rainfall for month,
.10 of an inch. Summer record to date, none.

WEATHER CONDITIONS.—The summer field
of high barometer stationary over the central
portion of the United States and dominates the
weather of the coast. Aids from a few scattered
stations in the Mississippi Valley and along the
Northwest coast, particularly generally dis-
tinct. The studies amount, 75 of an inch, is re-
ported from St. Paul, Fargo, and several places
in Minnesota, Nebraska, New Mexico, and
Arizona. The pressure of the high area is con-
siderable with the area of low pressure over Southern
California, will induce continued fair and the weather
for Los Angeles and vicinity should be similar thereto
at least period.

LOCAL FORECAST.
For Los Angeles and vicinity: Continued fair,
with light to moderate southerly winds, clearing
to northwesterly.
For California south of the Tehachas: Fair
Wednesday; continued warm.

STATE FORECAST.
SAN FRANCISCO, Oct. 13.—Forecast for San Fran-
cisco and vicinity: Fair, continued warm, Wednes-
day; Thursday, fair, continued warm, Wednes-
day; Friday, fair, continued warm, Wednesday.
Santa Clara Valley: Fair, continued warm, Wednes-
day; Thursday, fair, continued warm, Wednesday.
San Joaquin Valley: Fair, continued warm, Wednes-
day; Thursday, fair, continued warm, Wednesday.
California north of the Tehachas: Fair, continued
warm, Wednesday; Thursday, fair, continued warm,
Wednesday; Friday, fair, continued warm, Wednesday.

ARIZONA FORECAST.
WINTERTON, Oct. 13.—Forecast for Arizona:
Continued fair, Wednesday; Thursday, fair, con-
tinued warm, Wednesday; Friday, fair, continued
warm, Wednesday. YUMA (Ariz.) Oct. 13.—(Exclusive forecast from
the Yuma Station.) Continued fair, Wednesday; Thursday,
fair, continued warm, Wednesday; Friday, fair, con-
tinued warm, Wednesday. AD PEBS

VITAL RECORD.

WOMEN WAR ON EIGHT-HOUR LAW

Club Workers Organize to Fight Amendment.

Ford Meets Comrades of the Spanish War.

Hammel Talks to Women of Alhambra.

Los Angeles clubwomen are preparing to vote almost unanimously against the "universal eight-hour day" measure which will appear upon the November ballot as an initiative proposition, favored by the Socialist party.

Those who have made a study of this proposed law declare it to be by far the most mischievous and dangerous on the long list of so-called "Progressive" measures which clutter the November ballot.

Unrelenting in its opposition to the measure, the Farmers' and Fruit Growers' Federation, representing a membership of more than 15,000 ranchers in Southern California alone, is now engaged in making a canvass among the women's clubs south of the Tehachap, the results of which, as returned so far, indicate that the Socialist measure will have little or no support from that quarter.

Many of the women's clubs already have held discussions on the proposed law and wherever this has been done, an almost unanimous sentiment has been aroused against it. Other clubs will hold similar discussions some time between now and election day. Tomorrow morning Los Angeles Ebell Club will listen to a debate on the proposition in which Mrs. Loren O. Crenshaw and Miss Augusta Lamb will speak against the measure, and Mrs. Frances Noel, a Socialist, in its favor.

Following are brief expressions of opinion from women prominent in club circles:

Mrs. Stoddard Jones: I believe the "universal eight-hour day" should be defeated because I believe the opposition would be a great blow to the state, a disaster from which even so great and resourceful a State as California would experience great difficulties in recovering.

The work of the world cannot be done in eight hours a day. They used to say that woman's work is never done, and I doubt whether man is so much smarter than woman that he can do his work—finish it up clean—by working only eight hours a day—all the time he would be permitted to work under this proposed law.

The man who works for the hour or by the piece would find his earning capacity sadly impaired by the enforcement of an eight-hour day. I believe he should be allowed to work as he pleases. Six hours, today, perhaps, and ten tomorrow.

Mrs. Frank N. Nims: Suffrage no longer is on trial in California. Already the woman's vote has demonstrated its value to the State; but in an election like that impending, where a fringe is provided an opportunity to prove anew its worth.

There are many many amendments and initiative measures on the November ballot and the average woman has more time at her disposal than the average man to look into them and to decide for herself upon their merits or demerits. What is more, the women are doing this very thing. I believe that among the many measures to be voted on this fall more than one are mischievous and should be defeated; but none, in my opinion, is so dangerous as the "universal eight-hour day" initiative.

Mrs. Charles M. Flint: In my opinion the so-called "universal eight-hour law," which appears upon the ballot this fall as an initiative measure for which the Socialist party stands sponsor, is the gravest menace to California's prosperity this State has yet been called upon to face. Fortunately, women are coming to appreciate this fact. In our clubs we are giving all of these proposed amendments and initiative measures the careful study so that we may understand their purport and vote upon them intelligently. It sounds very well, this eight-hour law, but an examination into its provisions reveals it to be unreasonable.

WITH OLD COMRADES. FORD ADDRESSES VETERANS. Campfire scenes in the distant Philippine Islands during the troublous days that followed American occupation of Manila were recalled last night at the meeting of the Spanish War Veterans in Lomax Hall, where they were addressed by W. J. Ford, nominee for District Attorney, and a former comrade-in-arms. After the Sixth California Infantry was mustered out Ford returned to Los Angeles, his boyhood home, where he has since practiced law.

After an executive session of the Ford Campaign Committee it was announced yesterday that Ford will make at least six speeches every day until election. The committee consists of Harry Andrews, No. 1005 Hibernian building, chairman; Mark G. Jones, E. A. Featherstone, Walter P. Haas and George P. Adams.

For more than a week the staff at the Ford headquarters in the Helman building has been deluged with requests from all kinds of organizations for an open date on Mr. Ford's itinerary. Requests from the country districts have been particularly urgent. It is the earnest desire of the committee that every engagement made for Mr. Ford to speak shall be kept, and to this end it is necessary almost daily to swap dates or otherwise rearrange the schedule.

Hammel Meets Women. Mrs. David Lortimer, vice-president of the Los Angeles County Humane Club, was hostess to a large number of Alhambra ladies whom she asked to her home to meet Sheriff Hammel yesterday afternoon. Mr. Hammel gave an instructive and delightful address, going over the ground of the duties of Sheriff and work with the criminals, also prison reform, capital punishment and work among the juveniles. Before the afternoon was over more than fifty new members had enrolled with the Los Angeles Humane Club.

Mission in Politics. Democratic women of Los Angeles, under the leadership of Miss Lucretia del Valle, will hold a mission evening in the Labor Temple on the evening of the 16th. A mission program will be given, after which James D. Pheasant, candidate for United States Senator, and Nathan Newby, candidate for Congress in the Tenth District, will speak. John Steven McGroarty, the noted author of the "Mission Play," will act as chairman

of the evening. The mission spirit will be carried out in every respect. The old-fashioned Spanish dances, La Jota, Cachuca and Senora will be danced by true Spanish dancers, including some of the premier dancers of the "Mission Play." There will also be the "Mission songs" by Mrs. M. G. Gonzales and Miss Bernadette Dos. The evening will be closed by an old-fashioned California carnival, with plenty of confetti and peppermint to add to the joy of the occasion.

Organize Ford Club. About forty voters of Precinct 152 organized a W. J. Ford club Monday evening to further the candidacy of the present chief deputy for the District Attorneyship. H. R. Pearson was made chairman. The club is planning an old-fashioned, open-air, red-fire rally for an evening in the near future.

Political Notes. The Los Angeles Hammel Club at its headquarters, No. 104 Third Street, held another big meeting yesterday in the interest of the re-election of Sheriff Hammel. Rev. Baker P. Lee spoke of his European tour and also urged the election of Sheriff Hammel. Mrs. S. A. Randall discussed "Defective Classes." The club will hold another meeting next Tuesday afternoon and all are invited.

Frank C. Roberts, Republican candidate for Congress in the Ninth District, will be the speaker at a big rally at Covina tonight. Mr. Roberts is strong in that part of the district. L. L. Lottitt, candidate for Assemblyman, whose election is assured, also will speak.

Elliott H. Barrett, candidate for justice of the peace of Los Angeles township, has been endorsed by a committee of 100 Jewish residents and members of the American-Hungarian Society of Los Angeles.

The Socialist party announces that mass meetings will be held by Ralph Crivier, candidate for Congress in the Tenth District, William Francis Ireland, candidate for State Senator, Thirty-eighth District, and Cyrus W. Coffin, candidate for the assembly, in the Seventy-fifth District, each evening this week.

As T. L. O'Brien was called out of the city Monday night, thereby being unable to appear before the Business Women's Civic League meeting in the Metropolis building, where he was scheduled to speak, his wife took his place. She told those present why he should be elected.

FROM A NEGRO LEADER. LOS ANGELES, Oct. 11, 1914. To the Negro Citizens of Los Angeles County, California: You have entered freely into the spirit of thrift and industry characteristic of Los Angeles county. Seventy-five per cent of our colored population either own their own homes or are buying homes.

Our best interests require the support of party which safeguards rights and makes secure our enjoyment of life and liberty. That party is the Republican party, led by Capt. Fredericks and all who run with him. The Republican party is the ship, all others the sea. For the past two years we have learned the chilly waters of the "Progressive Sea."

I want to make a few remarks about prohibition, irrespective of party. Owing our own homes, as most of us do, the burden of taxation will fall on us should the State go dry, and in order to protect ourselves and our families you should vote No on amendment No. 2 at the coming election. November 2, next. For, if the Prohibition party shall carry the State, some \$1,123,000 will be the deficit in the city and county treasury that we, as property owners, will have to make up.

Therefore, I call upon you to vote No on amendment No. 2 at the coming election, irrespective of party affiliations.

R. C. OWENS.

Attorney George P. Adams made the talk of the session. He laughed the talk of the session. He laughed the situation so clearly before the board and the people that there was nothing left but the white flag for the Baritea.

He then read from a mimeograph letter got out by the Earl contingent ordering their henchmen to write letters to the Supervisors to "influence them into appointing Myron Westover."

"And you talk about the spirit of civil service. What humbug! Why these letters attack the very spirit of civil service as I see it. If you want none of it," he said.

Chairman Fridham then took a hand in the proposition. He made Norton squirm by charging him with trying to pad his expense account \$200, and with signing an illegal demand for money payable to his campaign manager. The demand was

A. J. Hill, Reappointed County Counsel by the Supervisors after a stormy session yesterday.

Shatter Schemes.

(Continued from First Page.)

\$2500, as Dr. Haynes publicly stated. He then enumerated several supposed mistakes made by Mr. Hill, such as bringing suit against himself and losing it, etc. The doctor sat down amid tremendous applause.

Dr. Francis Kellogg spoke against Mr. Hill for half an hour. A club woman read a petition and asked the Supervisor to appoint Mr. Westover. She admitted she knew nothing about the duties of a county counsel and hadn't ever met Mr. Hill, but she thought civil service was in jeopardy.

Attorney Sam B. Danna led for the other side in a strong speech expounding Norton, Haynes, et al., and was warmly applauded.

BY ATTORNEY ADAMS. Attorney George P. Adams made the talk of the session. He laughed the situation so clearly before the board and the people that there was nothing left but the white flag for the Baritea.

He then read from a mimeograph letter got out by the Earl contingent ordering their henchmen to write letters to the Supervisors to "influence them into appointing Myron Westover."

"And you talk about the spirit of civil service. What humbug! Why these letters attack the very spirit of civil service as I see it. If you want none of it," he said.

Chairman Fridham then took a hand in the proposition. He made Norton squirm by charging him with trying to pad his expense account \$200, and with signing an illegal demand for money payable to his campaign manager. The demand was

held up, when detected, and will not be paid. The Hall of Records fairly quivered with applause and cheers of the anti-Earl crowd at this. Chairman Fridham also paid his respects to Dr. Haynes, George L. Crenshaw, ex-Supervisor Sidney Butler and O. W. Schoenfeld of Lomita supported Mr. Hill in strong speeches.

TACK ON ANOTHER MILE. Railroad in Death Valley Gets Permission to Further Extend Famous Mining Region.

Another mile of track is to be tacked to the end of the Death Valley Railroad. Authority to issue bonds of a face value of \$93,348 to finance the proposed extension and to take up one slack between the estimated cost of the railroad and the actual cost has just been granted by the State Railroad Commission.

The railroad, as it exists, connects Death Valley Junction on the Tonopah & Tidewater Railroad with the Biddy McCarty mines of the Morax Consolidated, Ltd., of London, and is seventeen miles in length.

In penetrating the fastnesses of the desert, the Death Valley Railroad was pioneering the way for steam lines, consequently the engineers' estimate of the cost fell considerably short of the actual cost.

READY FOR BUSINESS. Clyde R. Moody, the new assistant United States District Attorney, was admitted to practice before Judge Webster in the Federal Court yesterday, and at once began work with his associates in the office of District Attorney Schoenover.

UNDELIVERED TELEGRAMS. There are telegrams at the Western Union for American Syrup Company, Mrs. John B. Bird, Billy Edwards, May Fitzgerald, Rev. C. B. Handenschild, H. D. Hart, N. Would Kill Industry.

(Continued from First Page.)

is that of using wine grapes for table grapes and changing all of the former to the latter if the State goes dry. In the first place it would take four years to secure fruit in commercial quantities from the grafted vines. Secondly it would so increase the yield of table grapes that it would be impossible to give them away. Right now, when only 18 per cent of the entire crop is sold for table use, the value of the fruit drops as low as 25 cents a lug box, which fails to pay expenses. Imagine what would happen if this small output were doubled.

"The declaration that approximately 700,000 barrels of grapes are imported from Spain each year and that California growers could fill this demand, shows the ignorance of the majority of prohibition advocates. The Spanish grapes arrive so late that there are no other American grapes available. Further than that, there are only one or two varieties of California grapes that could be stored long enough to last to the holiday season.

"From these facts and figures, adduced by a man not in the wine business, but in the grape industry, it is not difficult to realize that an unnecessary and really serious damage will be done to an industry that has taken many years to build up and one that will be destroyed in a moment by fanatical prohibitionists."

BILL TO AID MINERS THIS YEAR IS DOOMED.

Measure Before Congress Eliminating Work on Mining Claims has Little Likelihood of Passing, According to Information Received Here—Hits Many Persons.

LOS ANGELES, Oct. 18, 1914.

Frank C. Roberts, Esq., Long Beach, Cal.

My Dear Mr. Roberts: I regard it as of transcendent importance that Republicans be elected to Congress from California this year. The tariff is one of the most important questions to be settled in the interests of the people of this State. The beet sugar industry is threatened with destruction if the law putting sugar on the free list comes into force. The lemon growers are vitally interested in the better protection of their fruit. So are other producers in the State. The Democratic party has reduced the tariff on almost everything grown or manufactured in California. The only protection against the destructive effect of such legislation is the restoration of the Republican party to power.

includes tricorn shapes, large and medium sized sailors in silk velvet; small and close-fitting turbans in the most popular shapes. The trimmings are diversified and comprise ostrich, paradise, jet wings, fanciful pins, large velvet flowers, high standing novelties, also silver and gold ornaments. The showing comprises some of the models that were displayed during the recent Fashion Show, others from Eastern artists and still others cleverly designed by the "Vilje" artist. After inspecting these smart hats, you will certainly agree with us that they are unusual values at \$7.50.

the following letter from Congressman Carl Hayden, which reviews the situation concerning the bills now before Congress:

"It is not likely that the bill exempting assessment work on mines for this year will be passed at this session of Congress. Some time ago I took up this matter with the Secretary of the Interior, whose endorsement is necessary on legislation of this kind. The Secretary informs me that from the information he has received it appears that the passage of a bill waiving assessment work this year would do about as much harm as it would do good.

"A great many miners have been thrown out of employment on account of the demoralization of the copper market due to the European war; many of them could make a living

month in the tariff before the European war began would undoubtedly have forced the Democratic administration to impose direct taxation to meet this loss if the war had never occurred. This would certainly have come about when sugar and wool became free under the existing Democratic law. Free sugar alone would entail a loss of revenue amounting to something over \$50,000,000 a year. This loss has not come yet, and will not if a Republican Congress is elected this year.

Other reasons might be advanced to show the necessity, in the interest of the people of California, for electing Republicans to Congress, but this single one should be enough to influence every man and woman who has the interest and prosperity of the State at heart to support Republican

...mind that the only member of the Progressive party in the Senate voted for the Democratic tariff.

The question of the tariff is a party matter. Our Democratic members of Congress voted for the reduction of tariffs on the products of their own State. They will do so again if re-elected. There is only one thing the voters of this State can wisely or safely do in the election of men to Congress, and that is to vote for the Republican candidates. The ability of a Congressman to get appropriations for his district, or delve deeply into the "pork barrel," and his willingness to devote his whole time to that effort to the exclusion of higher and more important things, affecting the interests of his State and country, should not have a feather's weight in solving the question, "Whom shall we vote for?"

For the reasons I have mentioned briefly above, and others that might be mentioned, I hope you will be successful in your candidacy.

Sincerely yours,
JOHN D. WORKS.

TREND OF THE FINANCIAL NEWS.
CHIEF DEVELOPMENTS YESTERDAY.
(At Home.) The American Bankers' Association, now in session in Richmond, Va., has decided to name a committee to confer with Congress to ascertain if membership in the Federal reserve system cannot be made more attractive by suitable amendments to the banking act. An electrical railway official at an eastern convention declared that the meddling by State commissions has caused capital to be fearful to invest in railroad enterprises. A revival in export sales of wheat boosted the price on the Chicago Board of Trade.

(Abroad.) The House of Representatives of Cuba has under consideration a plan for a new college issue which is contained in a bill now under consideration and \$12,000,000 in silver coinage is to be put in circulation. (For details see financial page.)

RECOVERING.
As near as we can make out the summer of 1914 is convalescent and may reach a full state of sunny good health any day now. It is very hard for a summer to pass before it gets here. This one appears to be happily on the way.

PLENTY OF IT.
HARRY THAV is seeking legal counsel in Los Angeles. The task should not stump him for a minute. Out of 1300 attorneys in this city the young man from New York should have no trouble in getting advice on any point under the sun.

ATROCITIES AND LIES.
It is said that many lies are published about the atrocities of war. But that offers poor consolation, since the greatest liar on earth could not begin to approximate through his imagination the actual horrors and villainy of even "civilized" warfare.

BACK TO THE WAR.
Nothing else remains except the conflict in Europe now that the world series has concluded. It remained for Boston to solve what happens when an irresistible force meets an immovable object. The answer is, the Braves win. Boston may now live on baseball and beer and the rest of the world will have to be content with the new crop of baseball stories that the contest is certain to release.

THE GREATEST POEM.
Recently a New York paper held a vote among the contemporary poets to determine which was the greatest poem ever written. The result, "selected" the "Ode to a Grecian Urn," by Keats, the correct title of which is, we are confident, "On a Grecian Urn." We can only remark that if Keats is held as the paragon by so many of our contemporaries, it seems passing strange they should be content to ignore the artistry and abandon the conventions which he observed.

REMEMBERS.
Old people often move their lips when they walk. They seem to be thinking aloud. Perhaps they are holding themselves to one clear idea against the city's distractions. It may be they are reminding themselves of who they are. Persons who are ill or tired often concentrate on some one subject in order to avoid drifting or being swept away. It may be that one of the best things any man can do in this world is to so live that he will remind all others of the immortal nature of themselves.

GOOD WATER.
If an individual is libeled he can stop his slanders by law, yet a city may be defamed and it has no recourse. The monstrous lies published about the aqueduct water are long ago being widely quoted on the front pages of newspapers in jealous cities not only in California, but in Colorado. These cities are rivals of Los Angeles for the tourist business without any positive arguments in their favor. The best they can hope for is to find some excuse for printing unpleasant and untruthful things about the city which is getting the trade that they want. It is well known that the southwestern part of the city is under aqueduct water and that no fault can be found with it. The story that typhoid fever had resulted from its use is a plain falsehood. The people who are starting these tales have a motive and they will be fortunate indeed if this motive is not aired in the courts. Out of selfishness they try to frighten people. They aim a death blow at the city's honor and its business. In good time this will all be brought out.

THE GREATEST THING IN THE WORLD.
Everybody is agreed that the greatest thing in the world is happiness—but how to get it? As Hamlet remarked, "There's the rub." Some think it consists in finding the right person to love; others that it needs the Midas touch; a few that it is in discovering and doing pleasant work; some that it is found only in learning. And if anyone knew the formula for happiness he would be wiser than the sages of the Orient and the scientists of the Occident; the philosopher's stone would be but a bauble in comparison. But perhaps the greatest number of people in the world who find happiness find it thus: in doing what they want to do, and doing it well.

DOESTORVY, one of the greatest of the Russian novelists, has said the most tortuous punishment conceivable is to make prisoners do work that has no value—such as moving rocks from one pile to another and back again. And, inversely, it may be taken that the greatest cause for discontent and enmity in the world is that so many people give themselves over to an inconsequential and humdrum existence.

LET US HAVE LIVE CONGRESSMEN.
The Times, as the only Republican daily newspaper published in the great city of Los Angeles, has a duty to perform to its 350,000 readers. It is a duty that it will not shrink. It is to constantly and vigorously urge upon them the necessity of voting at the coming election for the candidates, especially the Congressional and Senatorial candidates, of the Republican party.

Capt. Fredericks will probably be elected Governor by over 50,000 majority, and Los Angeles may rest easy so far as he is concerned; but let us not overlook the necessity of placing Roberts and Osborne in Congress from the Ninth and Tenth districts.

For some strange and unexplainable reason Los Angeles has been made the target for all the vicious and poison-tipped arrows that a Democratic Congress could find in its quiver. The Tammany Congressmen from New York, representing Italian citrus fruit importers, struck down the protective tariff on California lemons. The Democratic caucus, controlled by the sugar trust, struck a blow at our beet-sugar industry, the effect of which has been postponed but not obviated by the European war. Our sheep farmers have to thank the Democrats for free wool from the Argentine and Australia, and our cattle owners for free steers from Mexico and Canada, and, in order to make good the deficits in the revenue which the tariff and not the European war caused, an emergency tax measure is proposed inflicting a tax on California wines which will cripple, if not destroy, one of our greatest industries, even if prohibition shall not cause the vines to be dug up.

No single measure of legislation will work greater injury to California than the repeal of the law exempting coastwise shipping from toll charges at Panama—a measure that was rushed through by a Democratic Congress.

When it came to appropriations, Los Angeles became the goat of Congress. Oakland harbor could get \$28,000, and Eureka \$125,000, and Astoria \$100,000, and even Coos Bay \$70,000, while San Pedro, which needed \$600,000, was shoved to one side with a begrudging \$42,000.

And during all this legislation and lack of legislation so vital to the interests of Los Angeles, our Congressmen from the Los Angeles districts when they were in their seats—which was not always—remained tongue-tied and quiescent, unable even to catch the Speaker's eye so as to voice a remonstrance.

Why? Because, although elected as Republicans by Republican votes, they did not have the wit or the integrity to retain their classification as Republicans entitled to minority representation on important committees, but they abjured their Republicanism and joined the scurrying and dwindling corporate guard of Progressives.

Whichever party shall win and which ever party shall lose at the coming elections in the nation at large, it is absolutely certain that the Progressive party will have no considerable representation in Congress, and will be no other than a trifling and inconsequential factor in national legislation, for its members will have no place on any important committee, will not be consulted on any important measures, will not be recognized by the Speaker in any important debate, and will be compelled to sit mute while Congress rides roughshod over the interests of their constituents.

Under the circumstances it would be a crime—it would be "worse than a crime, a blunder"—for the voters of Los Angeles—even the Progressives—to disregard their most vital interests and kiss the hand that smote them by re-electing to Congress the incompetency of Bell, or the boastful treachery and incarnate uselessness of Stephens.

If it is necessary that these intellectual paupers should be supported in luxury at the public cost, let the Chamber of Commerce pass around the hat for them. But let us put in the places which they occupy but do not fill, two men of brains and integrity and energy. It is the duty of every man of whatever politics who dwells in the Tenth Congress district and who is loyal to the interests of his home to vote for Osborne, and of every similarly situated voter in the Ninth district to vote for Roberts.

WHY BRITAIN ENGAGED IN WAR.
Premier Asquith is delivering speeches in England, Scotland, Ireland and Wales on the position of Great Britain with respect to Germany, and how it was that his country was forced into a war with the Kaiser.

The terms proclaimed by the British government in 1912, as stated by Mr. Asquith, were that "Britain declares that she will neither make nor join in any unprovoked attack on Germany. Aggression upon Germany is not a subject and forms no part of any treaty, understanding or combination of which Britain is now a party nor will she become a party to anything that has such an object."

This did not satisfy Germany. The Kaiser demanded that Great Britain should pledge herself to absolute neutrality in the event of Germany being engaged in war with any power, or for whatever reason. England was required to remain acquiescent while Germany doubled her army, increased her fortifications, built dreadnoughts after dreadnoughts and prepared to become the dominant power of the world on land and sea.

Great Britain would not stand for this, but quietly increased the number and efficiency of her land and naval forces, and when the neutrality of Belgium was violated she complied with the obligations of her treaty with that power and joined France and Russia in their war against Germany.

The one feature of the war that the historian will chronicle with amazement is the fact that Belgium, which had nothing whatever to do with the cause, fell between France and Germany and Austria and Russia, and which had no interests that would be advanced and no rights that would be

Destruction.

affected by the success or failure of either of the combatants, has suffered more from the war than either Germany or France. The cities of Belgium have been burned or captured, her industries destroyed, her government driven to a foreign country, and her people slain by tens of thousands, because she refused to become an ally of Germany by allowing German troops to march into and over and to occupy her territory. If she had acceded to German demands which have been equivalent to an alliance with Germany and subjected her to French, or English, or Russian invasion. Her refusal to do so subjected her to the ravages of Germany, to the destruction of Louvain, to the loss and partial destruction of Brussels and Antwerp, and to a demand from Germany of \$150,000,000 or thereabouts as "indemnity" for the expense to the conqueror of having devastated the conquered.

If Germany should win in the contest she would probably annex Belgium in satisfaction of the \$150,000,000 demanded. If Germany should lose out—well, there might be no Germany left to indemnify Belgium, Russia, and France, and Great Britain might obliterate Germany from the map of Europe.

AN ECONOMIST'S PROPHECY.
Some twenty months ago a book appeared under anonymity of "A Rifeeman." The book, published by John Lane Company, was called "The Gathering Storm," and was obviously written by an Englishman.

The Times some twelve months ago said it was the most remarkable book that had come to our attention during the year, and based the reasons for such commendation not on the ominous prophecy which "The Gathering Storm" contained, but on the comprehensive discernment and clarity with which the unknown author discussed and analyzed economic questions.

And it was on the basis of his analysis that the author swept forward to this final conclusion, which is the theme of the theory that since the commercial interests of the various nations have been developed as far as is possible under the existing balance of power—

"It follows that the development of German, Russian and American culture-levels must inevitably cut into the economic resources of the dominant culture-level, England, with the result that we must either fight to defend our markets or permit the decline of our commerce without an effort for its defense. And, again, the economic and racial antagonism between France and Germany, Austria and Russia, and the various other states, must inevitably, with the sharpening of trade-rivalry, due to the increasing momentum of industrial efficiency, result in wars."

"Alike, then, from external and internal causes we are on the eve of a tremendous strife of forces amid which will be evolved the higher plane of our civilization. And it will be a strife of forces upon a mightier scale, and which will witness scenes of more awful suffering, of more savage cruelty, than ever heretofore in the history of the human race. A momentary recrudescence of barbarism will check the effort of a highly developed civilization to the crude animalism of strife will unlock the gates of savage bloodlust, which, from the ethical standpoint, will throw mankind back hundreds of years in the plane of civilization."

"But it is a strife of forces which is as inevitable a movement in economics as was the invention of labor-saving machinery and the immediate suffering caused thereby to the working classes, a strife of forces which must inevitably develop from the increased momentum of industrial efficiency; a

strife of forces which is an inevitable accompaniment of the further progress of the human race."

Then with these cold-blooded words—which, in the light of recent events we may see were backed by wisdom—the book is brought to a close: "The question, then, does not arise as to whether we like it or not, we shall at no distant period be called upon to answer, is not whether we are ethically just or ethically unjust; is not whether we are 'glorious' or 'horrible'; is not whether the use of armed force is a method of barbarism, or not; but simply: in this strife of forces, are we to triumph or to go under?"

RIPLING RHYMES. THE PILGRIMAGE.

Life is a weary road to travel, and hard upon the feet, if we are bound to snarl and cavil at every one we meet. We ought to bow to strangers passing, and not knock off their titles, for they will answer us on a clean shirt, and give us smiles for smiles. If you are quarrelsome and scrappy, prone to gain a friend, you'll find the pilgrimage unhappy and dismal to the end. But if you wear a smile that is winning, a smile eight inches deep, some other chap who sees you grinning, will straightway cease to weep. A smile like yours, mine's contagious; folks seeing it will say, "This life can't be so blamed outrageous. If pilgrims smile that way." A scowl, alas, is just as catching; after its influence goes, folks seeing it will soon be hatching another brood of woes. This life's a time that's full of jangles, a discord, lame and halt, if we go seeking rows and wrangles, and keep on finding fault. But it's an anthem, grand, inspiring, sweet as the angel's song, if we go down the road inquiring who we can help along.

WALT MASON.

BOARD OF HEALTH MOTTOES.

Says the Indiana State Board of Health: "Let every home, each front yard and back yard, the rear of stores and all streets and alleys, be made specially clean for Disease Prevention Day. Let each person wear clean clothes on that day, take a bath, put on a clean shirt, clean socks and clean collar, and get his shoes shined. Get a haircut and a shave, wash your hands and face, clean your fingernails, and don't spit on the sidewalks. Let everybody be clean and talk cleanliness and health."

And it adds a few mottoes, about none of which will controversy rage, and all of which are at least as inspiring as the majority of those which bless our homes now. Here are a few of them:

"The only good fry is the dead fry."
"Well-kept alleys pay better dividends than well-kept cemeteries."
"Public health is public wealth."
"But it is a strife of forces which is as inevitable a movement in economics as was the invention of labor-saving machinery and the immediate suffering caused thereby to the working classes, a strife of forces which must inevitably develop from the increased momentum of industrial efficiency; a

WE MUST HAVE SHIPS.

BY WALTER J. BALLARD.

An American merchant marine would offer many advantages for foreign trade expansion while it would add an industry (with 500,000 to 700,000 workers) to the enterprises which make for the prosperity of an increasing population. It is not true that private capital and private initiative are inadequate to the provision of an American merchant fleet. The country is not lacking in ambition or resources sufficient for any promising economic undertaking, but the trouble is that from the standpoint of private capital the undertaking of furnishing a permanent American merchant fleet is not promising.

Without substantial changes in existing laws and in the attitude of politics toward the American wage scale, private capital without government financial help in some form, could not on account of the costs of construction and the costs of operation, to say nothing of the superior attraction of other investments, compete profitably with the foreign merchant fleets which do the bulk of the world's ocean trade. In this situation on which the persistent demand for ship subsidy has been based, a demand which is more righteous and necessary in the shipping emergency of today and the greater emergency which will increasingly arise as our foreign commerce takes shape over before in our commercial history.

The purchase and operation by the government of some \$30,000,000 or \$40,000,000 worth of foreign-built ships now lying idle, or practically so, seems to present the only means of immediately exploiting foreign commercial opportunity to the extent that opportunity is involved in the possession of an American merchant fleet. No concern for profit versus government enterprise in the business field. For earning power the government substitutes taxing power and is prepared to ignore all matters of expense.

For that reason, if the government goes into the shipping industry any chance of obtaining a merchant fleet through private provision will be forever destroyed. Private capital will not enter any field of endeavor in competition with governmental disregard of expenses and independence of earning power. A government-owned and operated merchant marine would avoid direct subsidy to private enterprise in one way only to grant it in another. The subsidy would not go to ship owners but to shippers, and the government fleet would be an acknowledgment that The Times and other firm advocates of ship subsidy were right in their contentions.

Government ownership of a merchant fleet might lead to awkward complications in time of war. It is also a question, as the New York Sun says, how much the government ship purchase bill squares with the sound doctrine of public policy enunciated by President Wilson recently when he told some cotton growers that he was anxious to see their troubles overcome, in principle, to any action which would plague us in the future.

There is a great chance for the United States to extend its economic domain through an increasing foreign trade, to the increase of which an American merchant fleet could make a most helpful contribution. The necessity of a government permanent merchant marine may consist in the impossibility of setting any other kind of device in motion to secure the foreign ships to American registry (as we are doing), by leasing, by construction under the aid of subsidies, or by government purchase, the fact remains that we must have ships.

STREAKS OF WIT.

The Poor Baby.
[Brooklyn Eagle:] Mrs. Firch: My husband is a perfect brute.
Friend: You amaze me!
Mrs. Firch: Yes, he is. Since the baby began teething nothing will quiet the little angel but pulling papa's beard; and—would you believe it?—yesterday he went and had his beard shaved off!

Turned the Assenting Party.
[Detroit Free Press:] "We had a military dinner today."
"I don't understand."
"A flank steak."
"How'd you get along with it?"
"I gave it a tough battle, but it resisted my attack."

A la Carte Dinner.
[Tribune:] Puzzled Diner: What have you got for dinner?
Waiter: Roast beef, fried chicken, stewed cabbage, baked potatoes, fried onions, jam, pickles and coffee.
Diner: Give me the third, fourth, fifth, sixth, eighth and ninth course, please.

The Language of Society.
[Louisville Courier-Journal:] "Well, shall I say that he jumped from the frying pan into the fire?"
"No; this happened in high life. Say rather that he leaped from the chafing dish into the conflagration."

QUAKER PHILOSOPHY.

[Philadelphia Record:] Some people give according to their means, and some according to their meanness.
Bibbbs: That fellow Sillicus is half-witted, isn't he? Silbbs: No; not quite half. At any rate love isn't stone blind. It can generally detect a flaw in an engagement ring.
After all, it is a better plan to swallow your wrath than to be forced to eat your words.
The man who hasn't paid his doctor's bill doesn't consider the debt he owes to medical science.
The world admires a man who has sand and sense almost as much as the one who has dust and dollars.

When a fellow drops a line to a girl and gets no response he probably didn't use the right kind of bait.
You never can tell. The fellow who throws a girl a kiss may be afraid to get close enough to hand it to her.
The first morning he forgets to kiss her good-by when starting downtown the honey-moon sends out the S.O.S. call.
The difference between a man advancing and retreating is exemplified by the fact that where one man comes back a hundred go back.

Banks Must Help, Not Hinder.
[Richmond News-Leader:] Secretary McAdoo's sharp telegram to certain banks to reserve cities of the South is timely warning to them and to the public that the first duty of banks is to help and not to hinder depositors on whose support they live.

Be Thankful.
[Kingley:] Thank God every morning when you get up that you have something to do that day which must be done, whether you like it or not. Being forced to work, and forced to do your best, will breed in you self-control.

woven in one solid piece;

true copies of the high-

class Wilton rugs, and suit-

able for any home or of-

fice; regular price \$25.

Tapestry Brussels Rugs, \$8

—6x9 ft. size; in a good

line of patterns and colors;

a regular \$10 rug.

Rag Rugs, \$8.25—9x12 ft.

size; plain and hit-or-miss

effects; regularly \$9.75

and \$12.

85c a yard will buy 54-inch plain effect Sunfast, regularly

\$1.35.

89c will buy any 50-inch by 3-yard white or ecru \$1.50

Nottingham Curtains.

25 per cent. reduction on any samples of fumed oak Rockers

and library tables.

10c a yard will buy any of our 12½c plain or figured silko-

lines.

25c will buy a 50c Door Panel.

(Rugs, Draperies; Third Floor)

Silk Negligees, \$3.95 to \$35

The showing is complete and extremely attractive; like-

wise very diversified, because it embraces all sorts of negl-

igees from \$3.95, \$4.50, \$5, \$6.50 up to \$35 for some of

the choicest.

Special at \$5.00—six styles of silk crepe de chine negligees;

offered for the balance of this week; regularly \$6 to \$8.50,

at only five dollars—excellent holiday gifts.

(Negligees; Second Floor)

Tailleur Suits, Special, \$21.75

You do yourself an injustice if you fail to at least look over

these lines of \$25 and \$30 garments at \$21.75—handsome

qualities of broadcloths, serges, gabardines and chevrons, in

smart short coats; long tunic akirts and cape effects; some

showing the Eton effect in front with long back. Many are

combined with Roman stripe; collars and cuffs of plain and

stripe velvets or silks. The colors are green, brown, light

and dark navy, wine and a few blacks—nothing more

popular right now; choice, \$21.75.

(Suits; Second Floor)

Hank Gowdy Sure Kicked Baker Off His Marble Pedestal.

BRAVES CARVE NEW RECORD.

First Team to Make a Clean Sweep of Series.

Gowdy Established a New Mark with the Bat.

Many Former World's Series Players on Coast.

BY HARRY A. WILLIAMS.

The combat for the championship of the world which passed away in Boston yesterday was a humdrum in more ways than one. Not only did the brunettes equine win, but the value of the baked bean as a tissue building and brain nourishing food was established. Had the Braves been fed on soup beans the result probably would have been far different.

Furthermore, there were a couple of records shattered and another equaled.

Boston won the title in shorter order than any club since the National and American Leagues began their fall frolics back in 1903, while Hank Gowdy, the despised Giant cast-off, hit the ball for a greater percentage than any human being ever hit it before in a world's series.

And when the clubs went through nine innings yesterday without a home run or a boot it was the third errorless game in the history of the big series.

To win the title in four straight games is an entirely new wrinkle. The nearest approach to it was in 1907, when Chicago failed to lose a game to Detroit. But it required five battles to decide the issue because the first game went thirteen innings to a draw.

The Athletics won their series with Chicago and their last one with New York with four games out of five. Chicago turned the same kind of a trick against Detroit in 1904, and New York took four out of five from the Athletics in 1905, but to make a clean sweep of the series is strictly a Massachusetts idea, incubated in Boston.

Baltimore took four straight from Cleveland in 1896 and New York manhandled Baltimore in the same manner in 1904, but the Braves' feat is a post-season series when the country was young and boasted but one major league.

Thus Boston's achievement stands out all by itself.

James' New Record.

When Bill James let the Athletics down with two hits in the second game he pitched one of the best games in the history of the world's series—an achievement that has been equaled by only three pitchers and exceeded by but one.

Ed Reulbach retired the White Sox with but a single blow in 1904, that being delivered by the late Jiggs Donohue. The Sox scored a run in that game, errors robbed Reulbach of a shut-out.

Brown, Walsh and Plank were the only pitchers to twirl two-hit games prior to the advent of James. Those who have retired opposing teams with three hits in post-season play for the championship of the planet are Dimsen, Overall, Bender, Coombs and Sedent.

Hankus Some Nitter.

A delve into the moth-eaten records of the past reveals the fact that none of the oldtimers ever walked the pill in a world's series as did Hankus Gowdy. Hank gleaned six hits, and was charged with eleven times at bat, which gives him the admirable percentage of .545. And all of Hank's hits, one a homer, another a triple and three of them doubles, were open and above board.

Boyle, with a percentage of .530 in the series of 1894, is the nearest rival of Hankus, while Hugh Duffy, with .524 in 1897, ranks third. Thus does the name of "Home-Run" Baker pale into insignificance.

Following are the series winners who were the champion world's series swatmen prior to the advent of the great Hankus:

Heroes of the Past.

Cities and Towns South of Tehachepi's Top—Los Angeles County

AUTO TOSSES HIM TO DEATH.

Padena Contractor Dies on Operating Table.

Woman's Hat Ablaze from a Cigar Lighter.

Replica of Famous Statue on College Steps.

Padena, Oct. 13.—As the result of an automobile accident early yesterday morning Samuel Warren Upton, a well-known Pasadena contractor, died dead in the arms of his wife, Mrs. Upton, who was driving the car.

The accident, which occurred on a small hill half-way between Annandale and Eagle Rock, was caused by a burning tire. Upton, who lived at No. 804 North El Molino avenue, and Fred Stahlhut of No. 280 South Pasadena avenue, were on their way to Van Nuys, where Stahlhut has the contract to build a large \$80,000 schoolhouse. Upton was foreman for the contractor.

They were starting to coast down the hill, and when the tire blew up the car turned turtle, throwing Upton violently forward on his head. His skull was fractured and he was unconscious when Stahlhut reached him.

A truck carrying building material and which was accompanying them to Van Nuys, was brought into service and the injured man taken to the Eagle Rock Garage, where a physician was summoned and declared that nothing but an operation could save his life.

DIES ON TABLE.

He was taken to the Pasadena hospital, where he died at 9 o'clock, just as Dr. Stanley J. Matteson was about to trephine his skull.

The dead man was a native of Massachusetts and was 46 years old. He had lived in Pasadena twelve years and was one of the best-known builders here, having constructed some of the largest and handsomest buildings in the Crown City. His last contract of importance was for the Henry W. Longfellow school on East Washington street.

He was a member of the Corona Lodge of Masons, the Pasadena Commandery of Knights Templars, the Pasadena Lodge of Elks and the Knights of Macabees. Besides a widow and four sons, Upton leaves a father, two sisters and two brothers.

An inquest will be held either today or tomorrow. The funeral will be Friday afternoon at 2 o'clock at the Masonic Temple; the Corona Lodge and the Commandery will form an escort. Interment will follow at Mountain View Cemetery.

Because of Mr. Upton's death the Winedale Society meeting, which was to have been today in the Masonic Temple, has been postponed.

HAT ABLAZE.

With her hat aflame an unidentified woman walked down Colorado street yesterday all unconscious of her danger. She had just stopped in a cigar store to inquire where a Socialist meeting was to be held. She pressed the lever of the cigar lighter and the hat was soon aflame.

She had walked quite a distance when John George and Frank Beebe noticed the blazing headgear. At first they thought it a new style hat, but raced down the street and jerking hat pins from every conceivable place, threw the flaming bonnet on the pavement.

STATUE PLACED.

The city of Pasadena acquired a work of art yesterday when a replica in Carrara marble of the famous statue known as the Apollo Belvedere was set in place in front of the entrance hall of Throop College.

The original of this statue is in the Vatican Museum in Rome. The statue which is now in the Crown City was executed in Rome twenty years ago for Louis Brandy by an Italian sculptor, who never found a suitable place to put it. He had kept it in a vacant house in Los Angeles.

When the Stickney Art School in Pasadena was opened, Elmer Grey, one of the members of the Art Association, recalled having seen it and asked that it be brought to Pasadena. It will be lent to the association indefinitely and will remain at the Throop College until Pasadena has an art museum.

Hotel Vista del Arroyo, Pasadena.

LECTURE ENDOWMENT.

CLEARMONT, Oct. 13.—A gift of \$25,000 has been made to Pomona College by a friend of the late Bishop Johnson, who stipulates that this shall be called the "Joseph H. Johnson endowment for lectureship." Lecture courses given for the college students have also been open to the public and have been well attended.

Long Beach.

LONG BEACH BURDENED BY SPECIAL ELECTIONS.

LONG BEACH, Oct. 13.—With the morning taking up a collection from the patrons of the market to pay for the printing of petitions for the recall of Callahan and Caldwell. He shook a cigar box under the noses of the housewives, beseeching them to give of their substance "to save their market."

Shreve stated that Callahan and Caldwell are the leaders in the movement to remove the market from the park, although Councilmen Farmlay first offered the resolution giving the market commission thirty days to get out of Pacific Park.

Mrs. Shreve stated tonight that there were 1700 names on the referendum petition; enough, she says, to call the election. Forty names are to be added until there are 2000 on the "honorable roll." She stated that the recall petitions would follow later.

Citizens who are amenable are groaning under the weight of special elections foisted upon them by freak laws.

HOT CHARTER ELECTION.

Alhambra Looks for Trouble Today as Factions are Earnestly Arrayed. Many Oppose Charter.

(LOCAL CORRESPONDENCE.)
ALHAMBRA, Oct. 13.—With the virtues and faults of the proposed new charter the subject of conversation all over the city, tomorrow's election will be vigorously contested. Many of the most prominent citizens are strongly opposed to the charter, and by the measure, are winning voters to their point of view.

Among the protesters are City Attorney Barstow, Trustee Haas, W. L. Haas and J. C. Ambrose, who point out many glaring inconsistencies in the document, drawing attention to the unlimited expense that such a city government would entail, and the thousands of dollars that have been wasted in the last two years for purposes of public entertainment and advertisement.

Those favoring the charter are given just as many reasons for its adoption, and especially among the women voters are there many supporters for the measure on account of the temperance issue. It is expected that the hour among the women will be definitely settled for all time.

CHERRY DIVIDEND.

IMPERIAL, Oct. 13.—The stockholders of the Delta Creamery held their annual meeting yesterday at the Imperial, and declared a dividend of 30 per cent for the year. This is the same rate that was declared last year. The Delta Creamery has the largest output of any single creamery in the valley—more than 2,000,000 pounds of butter per year. It is a co-operative company and from its organization has never paid less than 15 per cent, to its stockholders. It has always paid from 2 to 5 cents per pound for butter fat more than the Los Angeles quotations.

NEW STEEL CARS ON POMONA LINE.

BETTER SERVICE PROMISED ON LINES COMPETING WITH AUTO TRAFFIC.

(LOCAL CORRESPONDENCE.)

POMONA, Oct. 13.—Assistant Chief Engineer Johnson of the Pacific Electric Railroad states to members of the local City Council that the company, as soon as possible, will replace the present wooden railway cars on the Los Angeles-Pomona line with all steel coaches having many conveniences of modern worth to accommodate the traveling public of the valley, and to insure its safety. Representatives of the electric company admit that they are concerned over the effect that the rapidly increasing competition from privately run pay automobiles is having on the company's business in Pomona Valley as elsewhere.

The attention of the City Council has been brought to the fact that these automobiles pay no license tax nor can there be but little redress in case of accident to travelers as usually the owner of the pay-automobile has no property other than his interest in the automobile which he drives.

REAPER ENDS JOURNEY.

Ontario Girl Passes Away in East After Sudden Illness and a Major Operation.

(BY WIRE SERVICE—SPECIAL DISPATCH.)

ONTARIO, Oct. 13.—Tragedy brought an abrupt ending to a pleasure trip, when Miss Winnifred Beckingsale, daughter of Dr. and Mrs. D. L. Beckingsale, died yesterday at Evanston, Ill., following a major operation, according to a telegram received here tonight.

Miss Beckingsale and her mother left Ontario some six weeks ago, intending to spend a year in travel abroad. The coming of the European war changed their plans, and a few

PLANNING GREAT THINGS ON PALOS VERDES RANCH.

(LOCAL CORRESPONDENCE.)

LOS ANGELES HARBOR, Oct. 13.—Plans for the development and subdivision of the big 16,000-acre Palos Verdes ranch, purchased a few months ago from the Bixby estate by a syndicate headed by Frank A. Vanderlip, president of the First National Bank of New York City, have been held up on account of the European war, but the preliminary work is to continue.

Arrangements have been made for enlarging the nursery at Portuguese Bend, and the forestry work, under the direction of the famous Olmsted brothers, landscape artists, will continue. With the exception of the extension of the Western-avenue boulevard project, from Lomita through the big ranch to San Pedro, however, days ago intimate friends here received word that Miss Beckingsale was desperately ill. Only a few, however, knew of her illness, and news of her death came as a great shock.

Miss Beckingsale was a social favorite, a graduate of Ontario High School and the University of California. She taught English for two years in Chaffey High School. Last year she was elected head of the English department in the Santa Barbara High School.

Her brother, John Beckingsale, left for Evanston today. Dr. Beckingsale is at present abroad and his wife and daughter had planned to meet him in London.

George Bunce.
Life-long successful fisherman of Santa Monica.

ANGLES FISHES AT EIGHTY-TWO.

ALWAYS LUCKY, HE'S PLEASED WITH HIS CATCH OF WHATEVER SIZE.

(LOCAL CORRESPONDENCE.)

SANTA MONICA, Oct. 13.—"I've fished all 'o my life, and I'm always satisfied with what I catch," said George Bunce, an old gentleman on the municipal pier today, "and I haven't enough in my mass, why most likely some feller gives me some."

Sure enough, an old soldier fisherman came up and dumped a basket of finny beauties in the old man's sack and went away to the railing and started to bait up.

"These friends of mine fish for the fun of it. They have no homes and they give me their fish. I am always lucky."

Here is a man who has "lived well" since 1852, and is still vigorous and happy. His luck, he says, being caused by "having abstained from liquor and tobacco for over fifty years." Mr. Bunce is apparently in the best of health and spry and gay. He comes to the beach twice each week, and fishes with his friends.

He always goes back to his home in Sausalito, where he has a full and an appetite. He eats a selected list of foods, walks at least five miles a day, and stays outdoors as much as possible.

Mr. Bunce crossed the Atlantic from London at 15 on a bark, in 1848, the voyage taking eight weeks. He lives in Sausalito. He has never been sick, has no broken bones, never was in an accident, and is, as he says, "a better man than many fellows fifty years younger."

NEW BUS LINE.

A bus service from Orange to Los Angeles via Whittier started today. Only one bus will be put on tomorrow, but a little later another will be put on the run and four round trips made daily. The new buses will carry thirty persons.

MORE PACKING ROOM.

The packing-house of the Whittier Citrus Association is being enlarged by the addition of basement space, 185 by 48 feet. The work has just started and is to be done within thirty days, the time being the interim between the Valencia season just closed and the opening of the navel season. The improvement will cost about \$6000 and will relieve the main floor of the house of congestion during the heavy packing season. In order to have the work done within the required time the carpenters will work in a eight-hour shift, the excavators in two nine-hour shifts, and the cement workers in two ten-hour shifts daily. Three cars of cement and 400 loads of gravel will be used in the concrete construction.

Woman Stops Husband From Using Tobacco.

An Ohio Wife Broke Her Husband of Tobacco Habit With Recipe She Gave Secretly.

She Tells What She Used.

A well known Ohio woman, whose husband has been a heavy user of tobacco for years, broke him of the habit by the use of a simple home recipe that she gave secretly. She very gladly told what she used but requested that her name should not be made public, as her husband does not know why he quit using tobacco. She said: "The recipe is inexpensive and can be obtained from any drug store, and given secretly or with the patient's knowledge. To 3 oz. of water add 30 grains of muriate of ammonia, a small box of Varlex Compound, and 10 grains of pepsin. Give a teaspoonful three times a day at meal time, in the food or in the coffee, tea or milk. This recipe is perfectly harmless and has no color, taste or smell, and will be found effective for the tobacco habit in any form."

Makes Face Young—Tightens Loose Ties

A fretful expression, a wrinkled face and faded complexion, do more to drive the male members from home than is commonly supposed. It was one of my greatest difficulties to appear smiling, fresh and elegant when my dear ones were with me. But I have overcome all that. I have changed my mental attitude and I now find it second nature to look cheerful. Due partly to this, partly to a remarkable treatment recommended by a friend, my appearance has so improved I look fifteen years younger than before.

A simple face lotion made by dissolving an ounce of powdered ascorbic acid in a half-pint of water, proved a wonderful wrinkle-chaser. I still use this occasionally. To renovate my complexion I purchased an ounce of ordinary mercurized wax at my druggist's and before using this, a marvelous transformation had taken place. It was like removing an ugly mask, revealing a new face, a beautiful complexion of distinctive delicacy, clear, white, and velvety. I merely applied the wax like cold cream before retiring, washing it off morning. Ten days' treatment sufficed.—"Aurilia" in a Clubwoman.—(Advertisement.)

San Bernardino Valley Water Battle.

(LOCAL CORRESPONDENCE.)

RIVERSIDE, Oct. 13.—In an amended complaint against the City of Riverside, filed in the Superior Court of San Bernardino county, a copy of which has been received by Mayor Ford, city officials believe they see the purpose of the city of San Bernardino to determine all of the rights of all persons or corporations who are now taking water from the San Bernardino Valley.

It appears that San Bernardino will contest the rights of any other city or corporation or company to take any water whatever from what is known as the San Bernardino basin.

The new complaint not only makes the Riverside Water Company party to the action, but the city of Riverside, and four fictitious names appear with the other defendants.

It is the belief here that among the

Merchants Shoots Wife Believing Her Buried.

(BY DIRECT WIRE—EXCLUSIVE REPORT.)

IMPERIAL, Oct. 13.—Mrs. O. J. Fries was shot at their home here this morning shortly after midnight by her husband when she was entering the sleeping apartment, which she had left but a few minutes before.

Mr. Fries evidently was asleep when his wife left the room and upon her return awoke suddenly and thinking a burglar was in the room grabbed a revolver and fired, the ball entering the region of the stomach, inflicting a wound from which the attending physicians say she cannot recover.

It is said that there was something wrong with the safe in the Fries' store and that Fries had taken a considerable sum of money with him for

the purpose of making a trip to the coast.

His wife, who is said to be a devoted wife, was buried in the city cemetery.

O. J. Fries, prominent local merchant, was buried in the city cemetery.
